in black white and southern david r goldfield shows how the struggles of black

southerners to lift the barriers that had historically separated them from their white counterparts not only brought about the demise of white supremacy but did so without destroying the south's unique culture indeed it is goldfield's contention that the civil rights crusade has strengthened the south's cultural heritage making it possible for black southerners to embrace their region unfettered by fear and frustration and for whites to leave behind decades of guilt and condemnation in support of his analysis goldfield presents a sweeping examination of the evolution of southern race relations over the past fifty years he provides moving accounts of the major moments of the civil rights era and he looks at more recent efforts by blacks to achieve economic and class parity this history of the crusade for black equality is in the end the story of the south itself and of the powerful forces of redemption that goldfield attests are still working to shape the future of the region

this is not the nomination of a justice of the peace to some small county in some small state this involves the very integrity and fabric of our country senator orrin g hatch the transcripts of the senate judiciary committee hearings on clarence thomas are extraordinarily rich and suggestive much has been written about the hearings but until now no one has paid close attention to the actual language of the participants revisiting the words of clarence thomas and anita hill jane flax asks what we would learn about american politics if these hearings were literally our only text orrin hatch s assertion was indeed

perhaps more insightful than he realized how does our legal and judicial system operate in the face of sexual issues can it ever transcend race and gender who was the real victim in these hearings hill thomas the senate or the viewing public who in america has the power to make political meaning rather than attempting to establish fact or truth the american dream in black and white looks at the political narrative by which our nation makes sense of itself the senators own anxieties about their publicly televised role were evident throughout these hearings given our conviction that we are a nation built on freedom and equality says flax the senate committee had no choice but to confirm thomas thereby validating the cherished belief that with virtue and hard work even a barefoot boy from pin point georgia can transform himself into a supreme court justice to have turned him down would have called into question the very legitimacy of our politics and law to have sympathized with anita hill seen as having brought filthy material into public view was impossible demonstrating the powerful public role of narrative the american dream in black and white reveals the hearings as a dramatic challenge to the american political system a system supposed to rise not only above gender and race but also above any issue of sex guilt history or personal identity anita hill s and clarence thomas s conflicting accounts flax argues are a measure of the stories we tell about ourselves drawing on feminist political and psychoanalytic theory she shows how these transcripts reveal deep and serious fissures in the psychic fabric of contemporary americans black and white male and female identity politics and abstract individualism reflect rather than repair these fissures and the lingering discomfort with the hearings reflects the necessity of new political theories and practices
